

## Attractions Guide – Chongqing

### Hongya Cave

Decorated with faux wood, the appearance of Hongya Cave inherits the stilt houses of Linjiang in the 1940s. The beautiful butterfly tiles and stone pavements re-enact the traditional architectural style. After remediation in 2006, it was reopened and transformed into a food and leisure street area with Chongqing's characteristics. Since the outlook of Hongya Cave resembles the Onsen House in Hayao Miyazaki's animation "Spirited Away", it has exploded in popularity among tourists.
